BUILDING AND ENVIRONMENT—VOLUME 40
CONTENTS

Vol. 40, No. 1

T. Weber and **G. Jóhannesson**	1	An optimized RC-network for thermally activated building components
M. Nyman and **C.J. Simonson**	15	Life cycle assessment of residential ventilation units in a cold climate
E. Rutman, C. Inard, A. Bailly and **F. Allard**	29	A global approach of indoor environment in an air-conditioned office room
A.-S. Choi, K.-D. Song and **Y.-S. Kim**	39	The characteristics of photosensors and electronic dimming ballasts in daylight responsive dimming systems
E. Ghisi and **J.A. Tinker**	51	An Ideal Window Area concept for energy efficient integration of daylight and artificial light in buildings
R. Gupta and **G.N. Tiwari**	63	Modeling of energy distribution inside greenhouse using concept of solar fraction with and without reflecting surface on north wall
K.W. Chau and **F. Albermani**	73	A knowledge-based system for liquid retaining structure design with blackboard architecture
G. Nemli and **G. Çolakoğlu**	83	The influence of lamination technique on the properties of particleboard
H. Safarzadeh and **M.N. Bahadori**	89	Passive cooling effects of courtyards
S. Fujii, H. Cha, N. Kagi, H. Miyamura and **Y.-S. Kim**	105	Effects on air pollutant removal by plant absorption and adsorption
A. Mahdavi and **U. Unzeitig**	113	Occupancy implications of spatial, indoor-environmental, and organizational features of office spaces
L.T. Wong and **L.K. Leung**	125	Minimum fire alarm sound pressure level for elder care centres
A.B. Ngowi, E. Pienaar, A. Talukhaba and **J. Mbachu**	135	The globalisation of the construction industry—a review
F.W. Yu and **K.T. Chan**	143	Electricity end-use characteristics of air-cooled chillers in hotels in Hong Kong

Vol. 40, No. 2

P. Weitzmann, J. Kragh, P. Roots and **S. Svendsen**	153	Modelling floor heating systems using a validated two-dimensional ground-coupled numerical model
O. Kaynakli and **M. Kilic**	165	Investigation of indoor thermal comfort under transient conditions
I.G. Capeluto	175	A methodology for the qualitative analysis of winds: natural ventilation as a strategy for improving the thermal comfort in open spaces
T.X. Qin, Y.C. Guo, C.K. Chan, K.S. Lau and **W.Y. Lin**	183	Numerical simulation of fire-induced flow through a stairwell
W.K. Chow and **C.L. Chow**	195	Evacuation with smoke control for atria in green and sustainable buildings

X. Xie, Z. Huang, J. Wang and **Z. Xie**	201	The impact of solar radiation and street layout on pollutant dispersion in street canyon
C.K. Chau, W.L. Lee, J. Burnett, M.Y. Law and **T.M. Leung**	213	On the study of the impact of relaxing the pre-qualification requirements on the competitiveness in the supply of water pumps
A. Turatsinze, S. Bonnet and **J.-L. Granju**	221	Mechanical characterisation of cement-based mortar incorporating rubber aggregates from recycled worn tyres
X. Wu, Z. Zhang and **Y. Chen**	227	Study of the environmental impacts based on the "green tax"—applied to several types of building materials
Y.-H. Perng, S.-J. Chen and **H.-J. Lu**	239	Potential benefits for collaborating formwork subcontractors based on co-operative game theory
I. Dikmen, M. Talat Birgonul and **S. Kiziltas**	245	Strategic use of quality function deployment (QFD) in the construction industry
I. Dikmen, M. Talat Birgonul and **I. Ozcenk**	257	Marketing orientation in construction firms: evidence from Turkish contractors
B.H. Goh	267	The dynamic effects of the Asian financial crisis on construction demand and tender price levels in Singapore
J.C. Lam, C.L. Tsang, L. Yang and **D.H.W. Li**	277	Weather data analysis and design implications for different climatic zones in China

Technical note

F.G.R. de Oliveira, M. Candian, F.F. Lucchette, J. Luis Salgon and **A. Sales**	297	A technical note on the relationship between ultrasonic velocity and moisture content of Brazilian hardwood (*Goupia glabra*)

Vol. 40, No. 3

T. Kim, S. Kato, S. Murakami and **J. Rho**	301	Study on indoor thermal environment of office space controlled by cooling panel system using field measurement and the numerical simulation
S. Yilmazer and **M.B. Ozdeniz**	311	The effect of moisture content on sound absorption of expanded perlite plates
G. John, D. Clements-Croome and **G. Jeronimidis**	319	Sustainable building solutions: a review of lessons from the natural world
C. Li, J. Fu, G. Sheng, X. Bi, Y. Hao, X. Wang and **B. Mai**	329	Vertical distribution of PAHs in the indoor and outdoor PM2.5 in Guangzhou, China
Z. Liao, M. Swainson and **A.L. Dexter**	343	On the control of heating systems in the UK
M.S. Al-Homoud	353	Performance characteristics and practical applications of common building thermal insulation materials
M. La Gennusa, A. Nucara, G. Rizzo and **G. Scaccianoce**	367	The calculation of the mean radiant temperature of a subject exposed to the solar radiation—a generalised algorithm
J.R. Fontaine, R. Rapp, H. Koskela and **R. Niemelä**	377	Evaluation of air diffuser flow modelling methods experiments and computational fluid dynamics simulations
N. Papamanolis	391	The main constructional characteristics of contemporary urban residential buildings in Greece

T. Chenvidyakarn and **A. Woods**	399	Multiple steady states in stack ventilation
L.Z. Yang, D.L. Zhao, J. Li and **T.Y. Fang**	411	Simulation of the kin behavior in building occupant evacuation based on Cellular Automaton
O. Bellache, M. Ouzzane and **N. Galanis**	417	Numerical prediction of ventilation patterns and thermal processes in ice rinks
M.Y. Mak and **S. Thomas Ng**	427	The art and science of Feng Shui—a study on architects' perception
	435	Calendar

Vol. 40, No. 4

L. Enshen	437	Individuality and universality of energy efficient buildings
L. Enshen	439	Editorial
L. Enshen	443	General descriptions of research method, buildings, analysis object, assumptions and weather conditions of background cities
	451	Literature
L. Enshen and **W. Yong**	453	Are the relative variation rates (RVRs) approximate in different cities when the same energy-efficiency reform is taken to the same building?
L. Enshen, W. Yong and **M. Xiaofei**	465	Identifications: the RVRs are approximate in different cities with the same energy-efficient measures
Long Enshen	473	Are the relative variation rates (RVRs) approximate in different cities with the same increase of shape coefficient?
Long Enshen	481	Identifications: the relative variation rates (RVRs) of cooling and heating are approximately the same in different cities with the same increase of shape coefficients
Long Enshen and **Lin Zhenguo**	489	Are the relative variation rates (RVRs) of energy consumption approximate in different cities for the same increase of ventilation rate?
Long Enshen and **Xiao Yimin**	497	Identifications: the relative increase rates of cooling or heating energy consumption are approximate in different cities with the same increase of ventilation rate
Long Enshen and **Chen Jinhua**	507	Are the annual relative variation rates of energy consumption approximate in different cities with the same shading coefficient?
Long Enshen and **Zhou Jie**	517	Classified identifications: the annual relative variation rates (RVRs) of energy consumption are approximate in different cities with the same shading coefficient
Long Enshen and **Zang Zixuan**	529	Hourly classified identifications: the annual relative variation rates (RVRs) are approximate in different cities for the same building with the same shading coefficient
Long Enshen, Zang Zixuan and **Ma Xiaofei**	537	Are the energy conservation rates (RVRs) approximate in different cities for the same building with the same outer-wall thermal insulation measures?

Long Enshen and **Wang Liang** 545 Are the relative variation rates (RVRs) approximate in different cities for the same building with the same outer-window reform?

Long Enshen 557 Are the energy efficient rates (RVRs) approximate in different climatic locations for the same building with the same reform?

Long Enshen 563 Identifications: inevitability of RVRs being approximately the same under different meteorological conditions when taking the same energy-saving measures in the same building

Long Enshen 571 Research on the influence of air humidity on the annual heating or cooling energy consumption

Long Enshen 579 Influence of inner heat sources on annual heating and cooling energy consumption and its relative variation rates (RVRs)

Vol. 40, No. 5

Y. Sun and **T.F. Smith** 589 Air flow characteristics of a room with square cone diffusers

G. Einberg, K. Hagström, P. Mustakallio, H. Koskela and **S. Holmberg** 601 CFD modelling of an industrial air diffuser—predicting velocity and temperature in the near zone

C.-H. Hu and **F. Wang** 617 Using a CFD approach for the study of street-level winds in a built-up area

C. Chun and **A. Tamura** 633 Thermal comfort in urban transitional spaces

Z. Utlu and **A. Hepbasli** 641 Analysis of energy and exergy use of the Turkish residential–commercial sector

J. Sun and **A. Reddy** 657 Optimal control of building HVAC&R systems using complete simulation-based sequential quadratic programming (CSB-SQP)

T.-S. Shen 671 ESM: a building evacuation simulation model

A.A. Al-Rawas, A.W. Hago and **H. Al-Sarmi** 681 Effect of lime, cement and Sarooj (artificial pozzolan) on the swelling potential of an expansive soil from Oman

P.A. Favarolo and **H. Manz** 689 Temperature-driven single-sided ventilation through a large rectangular opening

I.S. Walker, T.W. Forest and **D.J. Wilson** 701 An attic-interior infiltration and interzone transport model of a house

S. Hiziroglu and **R. Holcomb** 719 Some of the properties of three-layer particleboard made from eastern redcedar

725 Calendar

Vol. 40, No. 6

F.W. Yu and **K.T. Chan** 727 Advanced control of condensing temperature for enhancing the operating efficiency of air-cooled chillers

L. Yang, G. Zhang, Y. Li and **Y. Chen** 738 Investigating potential of natural driving forces for ventilation in four major cities in China

M. Krarti, P.M. Erickson and **T.C. Hillman**	747	A simplified method to estimate energy savings of artificial lighting use from daylighting
J.M. Birginie and **T. Rivas**	755	Use of a laser camera scanner to highlight the surface degradation of stone samples subjected to artificial weathering
J. Burnett, M. Bojić and **F. Yik**	765	Wind-induced pressure at external surfaces of a high-rise residential building in Hong Kong
S. Abo-Qudais and **H. Abu-Qdais**	778	Perceptions and attitudes of individuals exposed to traffic noise in working places
S. Arthur, G. Wright and **J. Swaffield**	788	Operational performance of siphonic roof drainage systems
J. Virta, M. Koivula, T. Hussein, S. Koponen, H. Hakkarainen, H.-R. Kymäläinen, K. Hämeri, M. Kulmala and **M. Hautala**	797	Emissions from thermal insulations—part 1: development and characteristics of the test apparatus
M. Koivula, H.-R. Kymäläinen, J. Virta, H. Hakkarainen, T. Hussein, J. Komulainen, H. Koponen, M. Hautala, K. Hämeri, P. Kanerva, A. Pehkonen and **A.-M. Sjöberg**	803	Emissions from thermal insulations—part 2: evaluation of emissions from organic and inorganic insulations
F.Y.Y. Ling and **C.L.K. Chong**	815	Design-and-build contractors' service quality in public projects in Singapore
M. Kuske, A.-C. Romain and **J. Nicolas**	824	Microbial volatile organic compounds as indicators of fungi. Can an electronic nose detect fungi in indoor environments?
J. Rantala	832	A new method to estimate the periodic temperature distribution underneath a slab-on-ground structure
N. Ozay	841	A comparative study of climatically responsive house design at various periods of Northern Cyprus architecture
X. Li, Z. Yu, B. Zhao and **Y. Li**	853	Numerical analysis of outdoor thermal environment around buildings
	867	Calendar

Vol. 40, No. 7

L. Yi, W.K. Chow, Y.Z. Li and **R. Huo**	869	A simple two-layer zone model on mechanical exhaust in an atrium
T. Leephakpreeda	881	Adaptive Occupancy-based Lighting Control via Grey Prediction
S. Somarathne, M. Seymour and **M. Kolokotroni**	887	Dynamic thermal CFD simulation of a typical office by efficient transient solution methods
W.K. Chow and **G.W. Zou**	897	Correlation equations on fire-induced air flow rates through doorway derived by large eddy simulation
A. Nicolajsen	907	Thermal transmittance of a cellulose loose-fill insulation material

C.A. Discoli	915	Urban environmental impact matrices development: assessment indices incorporation
P. Lopez-Arce and **J. Garcia-Guinea**	929	Weathering traces in ancient bricks from historic buildings
B. Çuhadaroğlu	942	Thermal conductivity analysis of a briquette with additive hazelnut shells
P. Lansley, S. Flanagan, K. Goodacre, A. Turner-Smith and **D. Cowan**	949	Assessing the adaptability of the existing homes of older people
M. Ford, R. Griffiths and **L. Watson**	964	The Sandford Inventory of Earth Buildings constructed using a GIS
D.H.W. Li and **E.K.W. Tsang**	973	An analysis of measured and simulated daylight illuminance and lighting savings in a daylit corridor
G. Ballestini, M.D. Carli, N. Masiero and **G. Tombola**	983	Possibilities and limitations of natural ventilation in restored industrial archaeology buildings with a double-skin façade in Mediterranean climates
U. Matson	996	Comparison of the modelling and the experimental results on concentrations of ultra-fine particles indoors
T. Maritz, C. Klopper and **T. Siglé**	1003	Developing a national standard/code of practice for the classification of construction information in South Africa
	1010	Calender

Vol. 40, No. 8

J.M. Birginie and **T. Rivas**	1011	Use of a laser camera scanner to highlight the surface degradation of stone samples subjected to artificial weathering
W.K. Chow, G. Xin and **S. Liu**	1021	A further study on multiple attractors of mixed convection in confined spaces
B. Zhao, Z. Zhang and **X. Li**	1032	Numerical study of the transport of droplets or particles generated by respiratory system indoors
O. Ozgener and **A. Hepbasli**	1040	Performance analysis of a solar-assisted ground-source heat pump system for greenhouse heating: an experimental study
Z. Lin, T.T. Chow, C.F. Tsang, K.F. Fong and **L.S. Chan**	1051	CFD study on effect of the air supply location on the performance of the displacement ventilation system
M. Gunduz and **A.S. Hanna**	1068	Benchmarking change order impacts on productivity for electrical and mechanical projects
I.A. Touman and **F. Al-Ajmi**	1076	Tradition, climate: As the neglected concepts in architecture
M. Wetter	1085	BuildOpt—a new building energy simulation program that is built on smooth models
Y. Al-Ghuraiz and **A. Enshassi**	1093	Ability and willingness to pay for water supply service in the Gaza Strip
S.-S. Kim, I.-H. Yang, M.-S. Yeo and **K.-W. Kim**	1103	Development of a housing performance evaluation model for multi-family residential buildings in Korea

R. Yumrutaş, M. Ünsal and **M. Kanoğlu** 1117 Periodic solution of transient heat flow through multi-layer walls and flat roofs by complex finite Fourier transform technique

S. Pushkar, R. Becker and **A. Katz** 1126 A methodology for design of environmentally optimal buildings by variable grouping

L.E. Chávez-Valencia, A. Manzano-Ramírez, G. Luna-Barcenas and **E. Alonso-Guzmán** 1140 Modelling of the performance of asphalt pavement using response surface methodology

1150 Calendar

Vol. 40, No. 9

J.H. Buys and **E.H. Mathews** 1153 Investigation into capital costs of HVAC systems

R. Kosonen and **F. Tan** 1164 A feasibility study of a ventilated beam system in the hot and humid climate: a case-study approach

E.L. Villarreal and **A. Dixon** 1174 Analysis of a rainwater collection system for domestic water supply in Ringdansen, Norrköping, Sweden

R. Huo, W.K. Chow, X.H. Jin, Y.Z. Li and **N.K. Fong** 1185 Experimental studies on natural smoke filling in atrium due to a shop fire

E. Cui and **W.K. Chow** 1194 Simulation on indoor aerodynamics induced by an atrium fire

F.W.H. Yik and **W.L. Lee** 1207 Rebate as an economic instrument for promoting building energy efficiency in Hong Kong

M.N. Nieuwoudt and **E.H. Mathews** 1217 A mobile solar water heater for rural housing in Southern Africa

E.C. Curiel-Carías 1235 The building concept in hybrid systems constitution (Kiron system)

A. Öztaş and **Ö. Ökmen** 1244 Judgmental risk analysis process development in construction projects

Y. Avsar and **M.T. Gonullu** 1255 Determination of safe distance between roadway and school buildings to get acceptable school outdoor noise level by using noise barriers

A.A. Al-Rawas, A. Wahid Hago, R. Taha and **K. Al-Kharousi** 1261 Use of incinerator ash as a replacement for cement and sand in cement mortars

I. Mbamali, O.A. Aiyetan and **J.O. Kehinde** 1267 Building design for buildability: an investigation of the current practice in Nigeria

S. Muralidharan, R. Vedalakshmi, V. Saraswathi, J. Joseph and **N. Palaniswamy** 1275 Studies on the aspects of chloride ion determination in different types of concrete under macro-cell corrosion conditions

G. He and **X. Yang** 1282 On regression method to obtain emission parameters of building materials

1288 Calendar

Vol. 40, No. 10

S. Van Buggenhout, E. Vranken, S. Schuysemans, J. Lemaire, W. Van Malcot and **D. Berckmans** 1291 On-line airflow pattern measurement in ventilated buildings

N.K. Bansal, J. Mathur, S. Mathur and **M. Jain**	1302	Modeling of window-sized solar chimneys for ventilation
L. Ozgener, A. Hepbasli and **I. Dincer**	1309	Energy and exergy analysis of geothermal district heating systems: an application
S. Eren Özcan, E. Vranken and **D. Berckmans**	1323	A temperature-based method for determination of the two-dimensional trajectory of an air jet
S. Zhu, S. Kato, S. Murakami and **T. Hayashi**	1329	Study on inhalation region by means of CFD analysis and experiment
G. Nemli, I. Ozturk and **I. Aydin**	1337	Some of the parameters influencing surface roughness of particleboard
Y. Tsunetsugu, Y. Miyazaki and **H. Sato**	1341	Visual effects of interior design in actual-size living rooms on physiological responses
S. Thomas Ng, K. Pong Cheng and **R. Martin Skitmore**	1347	A framework for evaluating the safety performance of construction contractors
A. Kazaz, M. Talat Birgonul and **S. Ulubeyli**	1356	Cost-based analysis of quality in developing countries: a case study of building projects
F. Li and **J. Niu**	1366	Simultaneous estimation of VOCs diffusion and partition coefficients in building materials via inverse analysis
M. Nkwenkeu, C. Pettang and **P. Louzolo-Kimbembé**	1375	Cartography of the segregation as a tool of decision-making aid for the fight against poverty: case of the town of Yaounde (Cameroon)
M.O. Silvia and **C.G. Ignacio**	1384	Comparison of hygro-thermal conditions in underground wine cellars from a Spanish area
J. Virta	1395	Cupping of wooden cladding boards in cyclic conditions—A study of heat-treated and non-heat-treated boards
S. Hameury	1400	Moisture buffering capacity of heavy timber structures directly exposed to an indoor climate: a numerical study
M. Hejazi	1413	Geometry in nature and Persian architecture
	1428	Acknowledgment of reviewers
	1430	Calendar

Vol. 40, No. 11

K.-C. Noh, M.-D. Oh and **S.-C. Lee**	1431	A numerical study on airflow and dynamic cross-contamination in the super cleanroom for photolithography process
I. Aluclu and **A. Dalgic**	1441	A Case study on natural ventilation characteristics of the Diyarbakir Surici (Old City) Municipality Building in Turkey
J.P. Rydock, K.R. Lisø, E.J. Førland, K. Nore and **J.V. Thue**	1450	A driving rain exposure index for Norway
M. Erlandsson and **P. Levin**	1459	Environmental assessment of rebuilding and possible performance improvements effect on a national scale
G.-H. Kim, S.-H. An, H.-H. Cho, D.-S. Seo and **K.-I. Kang**	1472	Improved productivity using a modified table formwork system for high-rise building in Korea

N. Sahal and **M.A. Lacasse**	1479	Water entry function of a hardboard siding-clad wood stud wall
A. Tortum, C. Çelik and **A. Cüneyt Aydin**	1492	Determination of the optimum conditions for tire rubber in asphalt concrete
R. Kumar and **S.C. Kaushik**	1505	Performance evaluation of green roof and shading for thermal protection of buildings
W. Wang, R. Zmeureanu and **H. Rivard**	1512	Applying multi-objective genetic algorithms in green building design optimization
S. Ergonul	1526	Economic analysis of a shopping center in seismic zone
I. Demir, M. Serhat Baspınar and **M. Orhan**	1533	Utilization of kraft pulp production residues in clay brick production
H. Stone	1538	Perceived values of recreational urban parks with reference to Simferopol in the Republic of Crimea and Raleigh in the USA
A. Kazaz and **M.T. Birgonul**	1548	The evidence of poor quality in high rise and medium rise housing units: a case study of mass housing projects in Turkey
F. Yean Yng Ling and **M. Liu**	1557	Factors considered by successful and profitable contractors in mark-up size decision in Singapore
T.C.W. Tung, D.W.T. Chan and **J. Burnett**	1566	An empirical radon emanation model for residential premises
	I	Calendar

Vol. 40, No. 12

Y. Wang, L.-y. Li and **C.L. Page**	1573	Modelling of chloride ingress into concrete from a saline environment
T.Z. Desta, S. Van Buggenhout, A. Van Brecht, J. Meyers, J.-M. Aerts, M. Baelmans and **D. Berckmans**	1583	Modelling mass transfer phenomena and quantification of ventilation performance in a full scale installation
R. Emmanuel	1591	Thermal comfort implications of urbanization in a warm-humid city: the Colombo Metropolitan Region (CMR), Sri Lanka
G. Theodosiou, C. Koroneos and **N. Moussiopoulos**	1602	Alternative scenarios analysis concerning different types of fuels used for the coverage of the energy requirements of a typical apartment building in Thessaloniki, Greece. Part II: life cycle analysis
M.B. Kobav and **G. Bizjak**	1611	Development of a substitutive light source for indoor daylight calculations
A.S. Muhaisen and **M.B. Gadi**	1619	Mathematical model for calculating the shaded and sunlit areas in a circular courtyard geometry
M.T. Lah, B. Zupančič and **A. Krainer**	1626	Fuzzy control for the illumination and temperature comfort in a test chamber
A. Hagishima and **J. Tanimoto**	1638	Investigations of urban surface conditions for urban canopy model
A. Mahdavi and **S. El-Bellahy**	1651	Effort and effectiveness considerations in computational design evaluation: a case study

S. Kolari, U. Heikkilä-Kallio, M. Luoma, P. Pasanen, P. Korhonen, E. Nykyri and **K. Reijula**	1665	The effect of duct cleaning on perceived work environment and symptoms of office employees in non-problem buildings
M. Sahmaran, A. Yurtseven and **I. Ozgur Yaman**	1672	Workability of hybrid fiber reinforced self-compacting concrete
C.D. Atiş, F. Özcan, A. Kılıç, O. Karahan, C. Bilim and **M.H. Severcan**	1678	Influence of dry and wet curing conditions on compressive strength of silica fume concrete
E.D. Gezer, Ü.C. Yildiz, A. Temiz, S. Yildiz and **E. Dizman**	1684	Cu, Cr and As distribution in soils adjacent to CCA-treated utility poles in Eastern Blacksea Region of Turkey
G.-H. Kim, U.-K. Lee, U.-Y. Park, J.-Y. Kim and **K.-I. Kang**	1689	Modified braced wall system with pre-stressed wale for excavation in urban areas
